MANY WITNESSES CALLED IN DAN CARMICHAEL CASE TODAY

Judge Pearce Orders Attachment For John Brown, Witness For The State.

Defense Tells Court It is Essential to Their Case That Witnesses From Near Troy Be Brought to Court.

Dan G Carmichael, charged with first degree murder for shooting Police Officer Horry Deshazo, Monday night, December 7, was arraigned in Circuit Court today for trial. He pleaded not guilty The defendant entered a special plea of insanity before the court Saturday afternoon

Judge Pearce adjourned court at noon, but told jurors to be back at 1 30. Just before adjournment, the work of qualifying jurors was well under way. Several failed to qualify, owing to fixed opinions concerning capital punishment and the guilt or innocence of the defendant

Out of the qualified jurors, twelve will be selected this afternoon to pass upon the guilt or innocence of the defendant This is a tedious task and one that lawyers for both sides are liable to linger over. Therefore, it is doubtful if any witnesses are placed on the stand before the late afternoon or early tomorrow morning

The office of Sheriff John May was flooded with summons for witnesses yesterday afternoon or last night and he has been very busy trying to subpoena all those wanted The exact number has not been ascertained, but a deputy sheriff says he believes that about 150 have been summoned.

The State announced their case ready for presentation before noon. The defense said it was very necessary for their case that several witnesses, who live near Troy in Pike County be brought to court. Efforts will be made to obtain these witnesses, it is said

"Fancy" John Brown, witness for the State whom Judge Pearce ordered an attachment for early in the morning, had not appeared before the court at noon

Orders Attachment.

Because he was not present when his name was called in Circuit Court today "Fancy" John T Brown, one of the leading witnesses for the State in the Dan G. Carmichael case is being sought by the Sheriff. The court ordered Sheriff John May to take out an attachment for the man and go to Ardilla after him The court instructed the Sheriff not to take any bond, but to bring the witness to the court Some one in the court room indicated that Brown will appear later, and that he possibly did not get a very early start in coming to Dothan today.

Other cases were passed this morning in Circuit Court, and Judge H. A. Pearce called the case against Dan G Carmichael. Witnesses were being called this morning. Jurors were excused until 10:30 o'clock this morning

Dan G. and David Carmichael were brought into the court room a short while before the judge called the case against the elder Carmichael. Both seemed to be in good spirits. They shook hands with several of their friends within the railing.

Mrs. J. W. Floyd and Miss Pauline Mixon, of Midland City, were here today, shopping.

J. B. [illegible] of Route three, [illegible] with [illegible]

SCHOOL NOTES

If we may judge by the first number, the Rural Lyceum is a decided success. This was the lecture on "Oral Hygiene," by Dr E. N. Passmore at the Neely school house last Friday evening.

The house was full, all standing room taken, and buggies, wagons, and automobiles were brought to the windows in an effort to accommodate the crowd The attendance itself is an indication of the need and the opportunity for a valuable service.

The Rural Lyceum was organized by Prof R. D Southerland, president of the County School Improvement Association is made up of some of our professional men who have kindly promised this service, and Prof Southerland or the Supervisor will gladly make arrangements with any school improvement association desiring a series of lectures

So far the most successful meeting of the rural teachers was held last Saturday at the First Baptist church The Teachers Reading Circle ending its study of Human Behavior with an address on Human Instincts by Prof C W Johnson, president was followed at 11 00 o'clock by the County School Improvement Association Those taking part on the program showed painstaking study and thorough understanding of the subjects assigned under the theme The School as the Citizen Maker The speeches of Miss Anne Carter, and Messrs G M King and H D. Baldridge deserve special mention.

When almost every form of human endeavor is practically paralyzed it is peculiarly gratifying to know that our rural schools continue to grow and increase in interest and value Every school represented had some form of improvement to report We have seven new buildings in the county, others have additions new ceilings, partitions and other minor improvements several libraries have been added, and other forms of improved equipment obtained or funds being raised Ours is one of only four or five counties in the State having a full Four Crop Club Corn Canning, Pig, Cooking, and Sewing Clubs have been organized

Four or five schools are beginning to plan for a new building next summer others having only one room, expect to add another and have two teachers next year Let the good work go on There was a time when anything or nothing on our part would satisfy, but nothing whatsoever from the teacher would be wholly acceptable. Such an attitude is rapidly passing away The progress of the community is measured by its attitude towards education

Following this program a short meeting was held in which the Boys' Corn Club for the county was organized by electing Mr L J. Thompson, president This club will also foster the four crop, pig and canning club work.

The health campaign which began Monday will be a success if only the first visit is made. Dr Henry Green, the first physician accompanied by the Supervisor after inspecting the building and grounds at the Ardilla School, began his thoughtful, practical talk to the teachers and pupils by saying that the "first essential to good health is a clean mind." If the campaign ends with this the [illegible] of this one [illegible]

PRESIDENT WILL NOT DROP SHIP PURCHASE BILL

Washington, Feb 9 -President Wilson will not consent to drop the administration ship purchase bill, he told callers today, but is not yet finally convinced that the legislative situation will make certain an extra session of congress His discussion of the question today was interrupted by callers as meaning he would not hesitate if the bill were defeated by a filibuster

Carnegie to Stay in America

New York Feb 9 For the first time in many summers Andrew Carnegie will not spend his vacation at Skibo Castle his Scottish estate He said today that because of the war he would remain in America

SHIP BUILDING IS ON THE INCREASE IN UNITED STATES

Greater Activity is Being Shown Than for Many Years in the Past

New York, Feb 9 Shipbuilding in the United States is showing greater activity than for many years shipping men here declared today Every dry dock on the Atlantic Coast has more orders than it can fill Activity nearly equal to that existed on the Pacific coast

Among new vessels recently contracted for is one 15,000 tons register for the Luckenbach Steamship Company A cargo carrier for the Munson Line also is under construction No fewer than ten other vessels all cargo carriers are being constructed and inquiries it is said have been received from firms which are considering construction of at least ten vessels

Every vessel now on the ways it is said, will be placed under American registry

R T Ghent has returned from Palatka and other Florida points where he has been for several months

worth while

Some time ago the Supervisor offered $2 00 to the school first raising funds to secure a library One of the teachers secured the required amount next day

I have on hand one gallon of floor oil furnished by the Fulton Bag & Cotton Mills Atlanta which I will give to the first school raising funds after receiving this announcement to secure a library

The Supervisor has been finding difficulty in meeting all invitations to school improvement meetings and entertainments but with the aid of Prof. Southerland, Rev E. H. Jennings and Prof. J. V Brown, all have so far had a representative each time Work of this kind is of great importance When father and mother think the school of sufficient importance to visit and plan improvements for it, their children will think well of it too.

Two new associations were organized week before last and three two-year-old associations were visited last week.

C. A. WILLBOX.

MANY RACES IN AUSTRIAN ARMY SURRENDERING

British Observer With the Russian Troops Comments on Significance of It.

London, Feb 9 Prof Bernard Pares, British official observer, attached to the Russian headquarters, lays stress in his latest communication on the political significance of the wholesale surrendering of the racial contingents which compose the Austro Hungarian army

These surrenders are an indication of the feelings and aspirations of the various nationalities huddled together under the name of Austria, Professor Pares declares From the beginning of the war the Bosnians surrendered in large numbers Then the Poles began to come in fast and now come Bohemians and Moravians who seem to be surrendering in larger numbers than any other nationality The Hungarians are sure to continue to the end but the Roumanian and Italian soldiers of Austria have come over very easily

Professor Pares says the Czechs regard the Russians as brothers and six Russians entering Bohemia will be treated as friends

Speaking of the Memorandum which is so numerous in the United States Professor Pares says that although exempted from military service because of their objections to war they are serving in large numbers as ambulance volunteers

Professor Pares describes the attitude of the Russian soldiers toward death as in the nature of *fatalism*

He will speak of it As going to Austria the Indian over the country the observer writes

PRAYER MEETING

Prayer meeting at the Presbyterian church tonight will be conducted by Mr L. L. Morgan The subject for discussion will be one of great interest to all the congregation and every one is urged to be present Come and encourage others to come The church will be warm and comfortable Note the change of the hour to 7 00 o'clock The session will be glad to see every member of the congregation at the services tonight

LADIES' DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of Sage and Sulphur for renovating faded gray hair to its natural color dates back to grandmother's time She used to keep her hair beautifully dark glossy and abundant Whenever her hair fell out or took on that dull faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out of date Nowadays by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair

A well known down town druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this thru your hair, taking one strand at a time By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and

GREECE INSISTS ON PROTECTION OF HER SHIPS

Athens, Greece, Feb 9 In a response to a notification from Germany of its declaration of a war zone about the British Isles Greece today sent to Berlin a note insisting that her rights be respected Referring to the German declaration that English vessels were using neutral flags, the government contends that Greece cannot be held responsible for the acts of other nations

The government intimates that Greece expects her ships will continue to enjoy the guarantees provided by international law especially those in the Declaration of London

Nice mutton young and tender City Market Phone 120 tf

PROTEST IS MADE AGAINST SEIZURE OF NEUTRAL SHIP

Stanley Dallas Objects to Japanese Warships Detaining the Steamer Christian Bors

San Francisco Feb 9 A protest to the State Department against seizure and detention by Japanese warships of the Norwegian steamship Christian Bors under charter to the Robt Dollar Steamship Company of San Francisco consigned to a firm in Shanghai was made Monday by Stanley Dollar

The Japanese authorities alleged irregularities in the vessel's clearance papers The owners maintained the vessel was under a neutral flag, bound for a neutral port and consigned to citizens of a neutral power

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is Sign You Have Been Eating Too Much Meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and lazy When once kidneys get sluggish and clog you must relieve them, like you relieve your bowels removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful effervescent lithia [illegible]

NO FORMAL PROTEST WILL BE MADE BY UNITED STATES ON THE LUSITANIA INCIDENT

Dothan Wants State Exposition And May Work Hard For It

As circumstances indicate that Montgomery will not have a State exposition this Fall, and the outlook is by no means bright for Troy having a Fair the South East Alabama Fair Association will make an effort to have the name of the big Dothan show changed to the Alabama State exposition.

If Dothan succeeds in capturing the State Exposition, it is likely that the State will make an appropriation to aid in the work of agricultural and mechanical development as well as the promotion of interest in live stock raising

Newspaper articles in the Montgomery papers indicate that the outlook for the Alabama State Exposition in that city is by no means promising In fact unless some very extraordinary efforts are accomplished Montgomery will not have a Fair this Fall

According to reports Troy did not come out very well financially last season and the project may be abandoned there this year Besides the fair association had an unfortunate experience It will be remembered that a woman was killed by an automobile that broke through the fence Her relatives are suing the Fair Association for a large sum of money, as a result of the accident

However, it is possible that Montgomery and Troy may come back but it is hardly probable that such will be the case this season

Secretary McAdoo Criticised

Washington, Feb 9 Secretary McAdoo's activity in connection with the ship purchase bill was criticised in the house today by Representatives Humphrey of Washington and Mr. Moore of Pennsylvania Mr Humphrey read a letter addressed by Mr McAdoo to Democratic representatives generally, suggesting that they read the recent report to the Senate by the Secretaries of the Treasury and Commerce on the shipping situation

Mr Moore said the Secretary had issued misleading statements regarding freight congestion at certain ports

Statewide Bill in Colorado.

Denver, Colo, Feb 9 The administration statewide prohibition bill was passed on third reading in the senate today, 27 to 4 It now goes to the house The measure prohibits interstate and intrastate shipment of liquor for sale or gift except for medicinal and sacramental purposes

Forced to Flee in Nightie.

Atlanta, Ga, Feb 9 -In three fires in the residence district this morning over a score of lives were endangered and $10,000 worth of proper was destroyed Residents of the Bell apartment house, clad only in night clothes and what they could hastily grab in their flight, rushed out to face the winter winds as the result of a blaze which started in the drug store next door Twelve people were compelled to escape from a burning house at 107 Piedmont avenue by ladders, their escape being cut off with fire below. The firemen had to cut streets out of the burning [illegible]

Washington, Feb. 9.—The administration of the hoisting of the American flag on the British S. S. Lusitania, as stated today on the highest authority is that the use of the other flags by ships of nations at war is such a customary practice that no formal protest can be made, but that it will be proper to send Great Britain a note pointing out the dangers to neutral shipping which may follow if such a practice is continued.

SUMMARY OF WAR STATUS.

The reinforced German army in East Prussia has taken the offensive. The Russians are believed to have a large army there, and a great battle apparently is developing The outcome is expected to have an important bearing on the entire eastern campaign.

To the south in the Carpathians, neither side has gained a definite victory. The Austro-German troops have made progress in some places, but elsewhere have suffered reverses.

Petrograd reports that in one engagement the Russians captured 3,500 prisoners

The new German attack in the Argonne, in France has been attended with success. French military authorities admit that the Germans captured some of their positions Aside from this movement no engagements of importance are under way in the West

The Turkish invasion of Egypt one of the most daring and picturesque incidents of the war, seems to have come to naught. After their recent defeat near the Suez Canal, the Turks are said to have fallen back. A British official announcement declares they are in full retreat.

Waycross Woman Badly Burned.

Waycross, Ga., Feb. 9 —While she was using kerosene oil in starting a fire today Mrs. L. A Godfrey's clothes caught fire and she received serious and probably fatal burns. Little change was noted in her condition tonight. Mrs. Godfrey ran screaming into her back yard where neighbors extinguished the flames. Both arms were badly burned as well as the lower part of the body.

French Cruiser Off Havana.

Havana, Cuba, Feb. 9.—A French cruiser, apparently the Conde, arrived off Havana today and joined the British cruiser Bristol which for some weeks has been alternating with the British cruiser Berwick in watching the port and cruising outside Havana territorial waters. There is much speculation in official circles regarding the purpose and the presence of the cruisers.

WHAT RATE OF INTEREST DO YOU PAY?

An adequate system of rural credits is today one of the most imperative needs of the American farmer, says the Progressive Farmer, and we deeply regret the decision of President Wilson not to push the subject at the present session of Congress. Until we do get such a system—until the farmer gets money at a fair rate of interest wherewith to make needed improvements—it is inevitable that much of the advice to follow better methods must necessarily go unheeded.

We venture the assertion that not one Southern farmer in ten gets money at 6 per cent or less, and that the vast majority pay anywhere from 10 to 50 per cent for the use of money for a single year. These statements will be borne out by an unbiased investigation of the actual situation.

This can only mean one thing: our farms must go unimproved; stumps must remain in our fields; fences, barns, and nice homes must remain unbuilt; better breeds of livestock cannot be purchased, nor labor-saving, money making farm machinery installed. Why? Because, however important and necessary to better farming and better living these improvements may be, the average farmer's business simply cannot afford to pay such ruinous interest rates on money borrowed to make these changes.

American farmers possess an aggregate wealth of forty billion dollars, against a total value of all the railroads of the United States of only about fifteen billion dollars. Yet the latter, with less capital invested and a surely no sounder, safer security, are able to borrow vast sums at 5 and 6 per cent, while the average farmer has to pay from 8 to 50 per cent. This is a condition that should not be, and it is simply up to the farmers of the country to demand a change.

At the outset, we doubt if prevailing conditions are due to any one man or set of men. Rather they are due to a bad system, and it is this that must be changed if we are to get permanent relief.

What is necessary?

1. Legislation in every state to put the Torrens law into operation, so that titles to lands may be made absolutely sound and safe.

2. Money for the farmer on long time—not less than 20 years—with interest at not more than [illegible] per cent, a small part of the principle being repayable each [illegible]

[illegible] of debentures [illegible] mortgages on [illegible] to make [illegible]

WHAT $10 DID FOR THIS WOMAN

The Price She Paid for Lydia E. Pinkham's Vegetable Compound Which Brought Good Health.

Danville, Va. - "I have only spent ten dollars on your medicine and I feel so much better than I did when the doctor was treating me. I don't suffer any bearing down pains at all. I can sleep well. I cannot say enough for Lydia E. Pinkham's Vegetable Compound and Liver Pills as they have done so much for me. I am enjoying good health now and owe it all to your remedies. I take pleasure in telling my friends and neighbors about them." MRS MATTIE HALEY, 501 Colquhoun Street, Danville, Va.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

part of the lender, this of course being the purchaser of the bonds, by the most rigid governmental supervision of all operations.

A National Rural Credits law embodying these few fundamental principles will, we believe, mean cheap money on long time for the farmer. Will you sit still and let the present bad situation continue or will you demand that something be done?

WILL TAFT RUN?

Many think ex president Taft is grooming himself for the republican presidential nomination next year. He has been making great many speeches of late in different parts of the country, and while he has studiously avoided saying anything that could be taken as a hint that he would like to have the nomination, yet in many quarters there is the belief that he is in quite a receptive mood.

The big ex president may be waiting to see what move another big ex makes in regard to a third term which he believes is due him.

You know Mr. Taft and Col Roosevelt do not speak as they pass now nor have they spoken since Mr. Taft, who was standing between the Colonel and his third cup of coffee refused to get out of the way and let him have it. Nobody knows whether Col Roosevelt would oppose the nomination of Mr Taft but it is pretty certain that the Colonel could not secure the nomination for himself unless it be on the progressive ticket and that would mean nothing but certain defeat. Col. Roosevelt probably sees the hopelessness of a nomination from the Progressives, indeed if there are enough of them left to come in 1916 and may be having his plans to capture the regular republican nomination. In that event he would, of course, oppose the nomination of Mr Taft or anyone else.

It is more than likely though Col Roosevelt will never be able to come back and seeing this may not oppose the nomination of Mr Taft, who is considered about the only available presidential timber in the republican party now.

Mr. Taft is a big man and if it became necessary to have a republican president the South would rather it would be him than any other republican for he has been tried and has shown himself a friend of this section.

the country is too well pleased with Wilson to think about a change for several years yet.

AVOID A HOVEL, ALSO, A PALACE.

(E. W. Howe's Monthly.)

A palace is as marked as a hovel, and there is usually a story in connection with it (as there is in connection with a hovel.)

It is generally said that the rich are too rich, and many say the rich are too greedy, and too impudent.

It is generally said on the other hand that the poor are poorer than is necessary, that they expect too much, and are never as grateful as they should be.

It is middle class people with whom least fault is found, probably middle class people are best behaved, and they are certainly most numerous. Visit any town or city, and you will find that six out of every ten houses are substantial and well kept. You may see healthy and well-dressed children issuing from these houses, on their way to school. Everything indicates that the people living in these houses are reliable and worthy, that their sons will begin work in subordinate positions and work up to better ones, everything indicates that their daughters will marry worthy young men, begin housekeeping in a small way, prosper slowly, and rear families of children. These people rarely form mobs, they carry life insurance in one form or another, they read magazines and newspapers, they are patrons of the higher institutions of learning, they travel a little, and from their ranks come most of the great and good men of the country.

It is this class who should run the country. They are largely in the majority, and might do it, but they are so busy with their private affairs that they neglect public affairs and the result is high taxes, corruption and nonsense.

AMERICA SUPPLYING EUROPE.

(Commercial Appeal.)

One shoe manufacturing concern in Lowell, Mass., has contracted for an entire year to manufacture army boots for the French army. It is an exclusive contract. The plant will be operated night and day. No American orders will be solicited.

If this keeps up American markets will go begging. The American buyer is already being gummed to play second fiddle. Wheat shippers look with scorn on American purchasers when the nations at war offer more for their product.

As the war advances this demand will increase. It means a more sky ward advance in the cost of nearly every American product. President Wilson gave expression to sound common sense when he urged that there should not be a middle plow, a middle hoe, not a single improvement in our agriculture. He spoke truthfully and plainly when he said that it was up to the United States to feed Europe. This is what it does. It is equally as bad as to this country and its industry. It drains our supply of gold to the United States, but it places a penalty on the American consumer who has to pay more than he would under ordinary circumstances for what he must use.

When giant armies march and counter-march they trample the growing crops, they trample the life from villages and farms, they walk roughshod over the

ACHED ALL OVER, HAD PAINS IN CHEST

Jackson, Miss., Minister Tells How He Suffered After the Grippe and How He Was Restored to Health by Vinol.

Jackson, Miss.—"I am a minister of the gospel and I had the grippe so badly that I ached all over, flesh was sore, I had pains in my chest and back, no appetite, was nervous and had a stubborn cough.

"I tried different medicines without benefit, finally a friend recommended Vinol. I tried it and soon noticed an improvement and continuing its use I am entirely relieved of my troubles. I have also used Vinol in my family for chronic coughs and cold with the best results." —O. W. CHILES, Jackson, Miss.

Grippe leaves the blood in a thin devitalized condition. It takes away the appetite and leaves one weak, without energy and often in a dangerous condition.

In order to restore the blood to a healthy condition, iron must be supplied in an easily assimilated form. We guarantee this may be done by Vinol, our delicious cod liver and iron tonic, which contains no oil. If you try it and it does not help you we will return your money.

S. H. McCallum, druggist, Dothan, Ala., and at leading drug stores everywhere.

made smooth by labor. They trample out the achievements of years of peace. They come as a scourge of locusts leaving the country sale desolate and bare.

Everybody who has followed the present war understands this. Few have cared to stop to think how hard these soldiers must be on their shoes. The heads of the commissary are not so forgetful. They estimate the cost of shoes and boots and this is a very important item when it comes to appropriations. When the boys are marching their foot wear is short lived. The British army figures that a pair of boots will last a soldier six weeks and each pair of boots costs four dollars or more. If this is an average rate, and it is at least a fair one, base an average upon it this year war would cost Europe a billion of dollars for boots alone.

A cable from Paris says that the demand for army shoes is now 80,000,000 pairs a year. An American shoe manufacturer says that this country can provide 40,000,000 pairs a year. This is for [illegible] and leather industry [illegible] and expect 10,000 pairs a day we shall have done something remarkable but in the meantime what are we unfortunates at home going to do? It seems that we are entitled to primary consideration.

French Market Coffee is Southern Through and Through

Shipped from the coffee countries through warm summer seas to the Southern port of New Orleans, no cold climates affect, injuriously, the delicate coffee beans.

Roasted and blended by Southerners, especially for use in the Southern climate.

Sold to Southern merchants for Southern trade, blended, roasted, packed and shipped in the South, Southern Through and Through. No wonder it outsells all other brands in the South.

Endorsed by the best judges in New Orleans fifty years ago and by coffee drinkers daily throughout the South. It is now known as the National Drink of the South.

French Market Coffee

The Wonderful Old Secret Blend

There is a real treat in store for those who have not yet tried French Market Coffee. Buy a can today.

French Market Coffee abounds in vim producing power. Every spoonful is richly laden with what languor calls for—what weakness needs. Drink it. The flavor is worth getting.

And all this rich coffee goodness is awaiting you for a nominal price.

Tuesday Rook Club.

Bowls of narcissus and jonquils, the first flowers of spring formed the pretty decorations at the meeting of the Tuesday afternoon Rook Club, which was entertained yesterday by Mrs R H Parker.

Three talks were arranged for the interesting games, the players including Mrs J W. Grant, Mrs Earl Moody, Mrs D. C Carmichael, Mrs. Robert Boyd, Mrs John Flowers, Mrs. Will Flowers, Mrs Ed Jones, Mrs. S. B. Wooten, Mrs F B Culver, Mrs. S. A Jeter and Mrs H. H McNeil, Sr

Mrs. John Ray Jones of Dothan is spending some time in Montgomery with Mr and Mrs John Ray.—Montgomery Journal

Mrs J. M. Williams is the guest of Mrs Fred Riley of Geneva this week

A forecast of the summer styles can be seen in the goods now being sold for wear in the warmer parts of the United States and in the Indies. We are six months behind Argentine Republic in our fashions. They are wearing now what we are going to wear This northern part of the United States is clinging to the winter styles, but in the gulf cities the women are making dresses very much like those to be worn next summer further south.

Following in the trail of last summer, heavy weaves are given a prominent place among the new materials, but not, however, to the exclusion of sheer fabrics, the

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your glad nostrils open right up, the air passages of your head clear and you can breathe freely. No more headache, snuffing, blowing, coughing or sneezing. Your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant antiseptic cream in your nostrils let it penetrate through every air passage of the head, soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just glorious relief.

fascinating colors As has been the vogue for some seasons past every thing is as soft and pliable as the texture of the goods will permit Even the heavy looking corded weaves and the popular duvetynes have a soft clinging appearance when worn It is difficult to describe the many lovely things that are to be had at a price that comes within reach of most of us, and that is saving a good deal in these times Prices range from 15 cents a yard to $2, but dress cottons quite good enough for dressy wear can be had for between 25 cents and 75 cents a yard

The heavy coatings that bid fair to hold a prominent place are of course higher in price but then they are not so expensive after all for they are very wide and only a small number of yards is necessary to complete a garment The rich Oriental colors still hold their own in these materials and for outing wear they are lovely Even the conservative dresser does not hesitate to don one of these lovely colorful top coats when spending a time at a Southern resort or in the country

This season sexual alphabets is laid upon cotton voiles and cotton crepes This is because American manufacturers are turning them out in such surprisingly lovely effects and that they are much cheaper than the same grade of goods would be if it were imported . Among these goods stripes hold a strong place They are shown in various widths from the wide, awning stripes that were launched last year to fine pin-stripes in innumerable colors and combinations

While one's attention is centered upon cotton, one must not lose sight of silks They occupy a very prominent place in the wardrobe of the up to date woman All dresses intended for afternoon functions are made of silk Delicate voiles or Ottomans, soft taffetas, silk velvets and wool velour are all used in developing these dressy frocks Distinctive effects may be obtained combining these materials with old embroidered chiffon, jet pearls, or adding to them bands of fur, such as skunk, sable, ermine and the popular ape skin

These evening dresses of this season are not so rich and dazzling as those of last winter, but in many will be found most becoming, as the old age lines which make their first appearance in the neck are the most difficult to disguise A woman's collar is also one of the three essential points of costuming that requires skill in handling and reflects the exquisite grooming that is the

Treat Children's Colds Externally

Don't dose delicate little stomachs with harmful internal medicines. Vick's "Vapo-Rub" Salve, applied externally, relieves by inhalation as a vapor and by absorption through the skin. Vick's can be used freely with perfect safety on the youngest member of the family. 35c, 60c, or $1.20.

"VAPORUB"

predominating note of all military dress

This threatened influx of militarism brings with it one feature over which we can all rejoice It has thrown the slouch sloucher into the discard and brought in to fashion the upright standing figure that is the rightful heritage of our twentieth century girl.

Montgomery Journal

In Respect to Fargo.

Flags Ordered Hauled Down.

Amsterdam Feb 9—The Telegraaf today publishes a dispatch saying that the German commander at Bruges, Belgium, ordered all the consulates there to haul down their flags and remove the coats of arms.

The consuls, the dispatch adds, including the representative of Turkey, protested; but the order was enforced, in some cases with violence, and in addition the consuls were compelled to surrender

British Discuss Mexican Question.

London, Feb 9 Neil Primrose Parliamentary Under Secretary of the Foreign Office replying to questions in the House of Commons said the British Government had not recognized anybody as Provisional President of Mexico since the retirement of Huerta. He added however, that the government had brought to the attention of the United States several cases of damage and loss to British interests in Mexico which had occurred since the Huerta department last July
